CAREER SUMMARY

I am a tech enthusiast and a graduate in Master's in Computer Science from the University of Bayreuth. Having 5 years of experience in the field of software engineering, I am looking forward to joining a creative and enthusiastic team that is looking into the development of amazing/futuristic products.

WORK EXPERIENCE

Technology and Strategy - Stuttgart (Germany)

August 2021 – Present

Unity Developer – *Unity, C#*

Consultant for **Diamler Protics**

- Creative customization of the in house application and localization
- Frontend development in the Unity-based editors of the platform to enable new use cases, implement service REST APIs
- Develop data converters and experience generators in c# platform services
- Develop the web frontend further (.NET Micro, HTML/CSS) to add publication workflows, device management, etc.
- Support subproject leaders in client meetings and with the acquisition of new clients
- Take on responsibility for software components (editors, pipelines, viewers) perspectively and take full responsibility for a good customer experience

Hochschule Munich- Munich (Germany)- Part-Time

August 2021 – Present

Technical Lead - *Oculus, Design Concept, Feasibility, Mozilla Hubs*

- **Lead** a team to check the feasibility of an application and design concept
- **Constructed** the deliverable targets and **achieved** them for **August 2021**

University of Bayreuth - Bayreuth (Germany)

September 2018 - September 2021

Research Assistant – *Unity, C#, Python, Data Analysis, Phasespace*

September 2020- September 2021

- Designed UX/UI and implemented university's braille project with mid-air haptics
- **Research Paper** - "Usability and Safety of Mid-Air Haptic Representations for Driving Directions in In-Car Environment"- in Review

Student Assistant – *HTML, CSS, Fiona CMS*

September 2018- September 2021

- Managed and maintained the following websites: Afrikanistik and African Verbal and Visual Arts
- Identified and resolved errors on the websites
- Performed supporting tasks for the institute staff
- Developed and implemented new ideas on how to efficiently organize website maintenance

Volkswagen - Wolfsburg (Germany)

January 2020 - September 2020

Master thesis – *Unity, C#, Python, Data Analysis, AWS*

Master Thesis involving the creation of a driving simulator and use of mid-air haptics for navigation. Topic - "The usability of Mid- Air Haptics in car navigation systems".

- Conducted a literature review
- Built a VR driving simulator in Unity
- Created a navigation system for the driving simulator including voice, visual and Ultrahaptic navigation prompts concerning Human-Computer Interaction
- Conducted several user studies to examine the use of haptic feedback
- Analyzed data using Tableau and Python

Schaeffler Technologies - Herzogenaurach (Germany)

September 2019 - November 2019

Intern Software Developer VR – *Unity, C#, Excel Macros*

- Designed the training module of a specific machine in VR
- Implemented knuckle hand model into the old framework, without Steam VR for a better user experience
- Identified and fixed bugs

- Assisted in creating a design concept of a new system

Exasol - Nuremberg (Germany)

August 2018 – September 2018

Working Student – *SEO, HTML, CSS, WordPress CMS, Google Analytics*

- Focused on improving the SEO of their main website
- Involved in digital marketing and wrote templates for automatic emails in HubSpot and brought in new leads

HCL Technologies LTD - Noida (India)

August 2014 – June 2017

Software Engineer – *CA Clarity PPM, JasperSoft- BI Tool, JSP, SQL*

Consultant for **Deutsche Bank** for CA Clarity PPM v13.1, v13.2, v14.1

- Provided support and enhancements for their Production environment
- Maintained production server's health using Geneos Active Console
- Documented and created analytical reports
- Optimized scheduled jobs based on reports
- Assisted the training of new members who joined the project
- Responsible for JasperSoft reporting tool used for BI which is integrated with clarity

EDUCATION

University of Bayreuth – Bayreuth (Germany)

September 2017 – November 2020

Master of Science, Computer Science: Specialization in Human-Computer Interaction

Grade: 2.0

Relevant Courses:

Human-Computer Interaction II, Human-Computer Interaction III, Data Analysis and Deep Learning in Python, Robotics 2, Software Product Line Engineering, High-Performance Computing, Software Modelling

Projects:

Master Thesis: "The usability of Mid-Air Haptics in car navigation systems"

Multiplayer VR Game - [Team Size -3]

In-Depth Benchmarking of Thunder X2 processor

Maharshi Dayanand University – Rohtak (India)

August 2010 - June 2014

Bachelor of Technology, Computer Science and Engineering

Grade: 2.3

Relevant Courses:

Data structure and algorithm, neural network, artificial intelligence, Java, Unix, Statistics, Web development

Projects:

Bachelor thesis: "The study of workflow, revenue generation, pitfall and security aspects of Ecommerce"

Music Library - [Team Size -3]

PROFESSIONAL SKILLS

Programming Skills

C#, Python, Java, R

Software expertise

PyCharm, Linux, Jupyter Notebook, Unity 3D/VR/AR,

CMS

WordPress, Joomla

SEO Testing

Screaming Frog

Database

MySQL, Oracle 11g, MS Access

BI-Web Tools

Tableau, Google Analytics

Transferable skills

Very strong verbal and communication skills, ability to achieve goals in a highly innovative and challenging environment

SPECIAL ACHIEVEMENTS

- University of Bayreuth Scholarship - Winter Semester 2019 - 2020
- 3rd Prize in Study Smarter Hackathon, June 2019.

LANGUAGES

German: A2 Level (Planning to take a course in B1)

Hindi: Native language proficiency

English: Native language proficiency
